Gentlemen:

As you requested in your letter dated 18 February 1965, we have investigated Item b., which is "Conversion of the chip printer auxiliary printing system from the proposed font-hammer system to a silicon diode array data block."

Our technical approach to the above stated effort is outlined in Technical Proposal SME-105-40A, dated 7 April 1965, four (4) copies of which are enclosed.

The cost to incorporate an "Alpha/Numeric and Digital Data Recording System on Photographic Emulsion" is budgetarily estimated at [REDACTED] and can be accomplished within an eight (8) month period of time.

We trust that the Technical Proposal, as submitted, is sufficient for your requirements, but in the event that any other technical information or detailed cost information is desired, please feel free to contact the undersigned.

Very truly yours,

25X1A
